## STAINLESS STEEL TANKS FOR EVERY PURPOSE

### TANKS

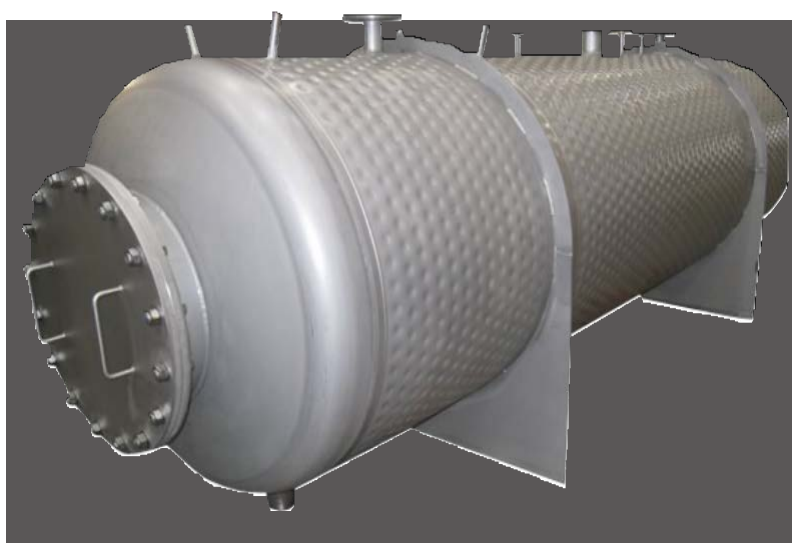

ATHCO-Engineering dimensions, designs and manufactures stainless steel tanks for every purpose.

ATHCO-Engineering has specialised in dimensioning, design and manufacture of tanks that has particular demands on them.

The tanks are all made from stainless steel materials.

The tanks that hold products that require heating or cooling are equipped with jackets made from thermo plates, as they are an integral part of the casing.

The tank, including the jacket is designed and calculated according to PED or ASME, and ATHCO-Engineering will support all necessary documentation.
